

PROFESSIONAL FILTRATION CHEMICAL FLUIDS

HiFlux AUTO-LINE® filters are specially designed for automatic filtration of chemical fluids.

World leading company producing customized industrial filter solutions. Increased security, production and better profitability.

HiFlux Filtration A/S

About the AUTO-LINE® Automatic filter

Installed at several chemical plants around the world.

Before installation:

Cleaning manual filters regularly, high maintenance costs, downtime in production.

After installation:

Automatic process, increased productivity, minimal maintenance, no production stops.

Facts for the Auto-line® Automatic filter

HiFlux Auto-line® Filter has been designed as a compact, self-cleaning filter. The sturdy construction of the filter makes it well suited for applications in which operational reliability and dependability are essential.

Accurate filtration down to 35 micrometers [μm].

FEATURES

- **Removes unwanted particles**
High operational reliability.
- **Ensures the quality**
Increased product quality.
- **Continuous flow process**
Self-cleaning application.
- **Eliminates downtime**
Optimizing earnings.

Did you know?

A customer in the chemical sector (bio-diesel) obtained a 20% higher production output and saved 1.5 hours every day when switching from bag filters to an Auto-line self-cleaning filter. Chemical filtration requires high security for the operators and with the Auto-line self-cleaning filter the operators is protected against exposure and contamination.
